# #OFF THE LIST

## Take Cuba off the State Sponsors of Terrorism list

Under Donald Trump, the 60-year-old blockade was tightened by imposing an additional 243 sanctions and by adding Cuba to the US State Sponsors of Terrorism (SSOT) list with devastating consequences for the Cuban people. Inclusion on this list makes it virtually impossible for Cuba to access international banking systems, causing shortages in food, fuel, medicines and other basic necessities.

Cuba is not engaged in, nor supports terrorist activity. Its inclusion on the list was a cynical move by Trump to cause maximum damage to the Cuban economy. Despite Joe Biden's election promises to reverse sanctions, Cuba remains on the list.

Add your name to the international campaign to remove Cuba from the US SSOT list and end the inhumane blockade today.
